

10th May 2019

Dear parents and carers,

As you may be well aware, a significant weather event occurred this morning, which caused significant damage to a number of rooms and classroom spaces.

Some parents chose to collect their children voluntarily during the day.

The health and safety of our students is our number one priority, which is why we provided a modified program in a safe environment for all students who remained at school today.

I wish to congratulate all of our students and staff for how they managed a challenging and unique set of circumstances.

As you are aware, Monday is a curriculum day and we will continue to work closely with the Department and contractors to restore the school as quickly as possible.

The school will operate as usual on Tuesday, however some alterations to the normal timetable may occur. We will communicate any changes with you closer to that time.

Regards

Peter Koop

Principal
